

Click "Add Field" at the bottom of the table. The new field will be added as the last field to the table. You can change order of the fields by dragging the small up-down icon.

Right click on the table to delete or clone the table and to change table color.

Creating Relationships

To create a relation between two tables, you need to add a "Foreign Key" to a table. When adding a new field click on "Foreign Key" and select the "Referenced Table" and "Referenced Field"
